Step 1—Complete Installation Checksheet

Customer Agrees: Sears assumes the customer's existing facilities are up to code and can accommodate a basic installation (Basic Installation: a basic installation is limited to plugging in or hooking up the merchandise to your electrical outlets or gas or plumbing connections. No repairing, plastering, painting or decorating is included unless specifically noted. It does not include any changes to your electrical, gas or plumbing systems unless specifically noted. It does not include removing or disposing of your old appliance or fixture unless specifically noted.) If additional work is required to meet this criteria, it will be the customer's responsibility. Any additional charges will be quoted and approved prior to the start of the job.

I acknowledge that I have read, completed and understand the "Product Installation Checksheet" and received a copy for my records.
